(54) DIRECT CAPTURE OF VIDEO CONFERENCE DATA

(57)Abstract:

PURPOSE: To provide a means for directly capturing video conference data.

CONSTITUTION: This system allows plural parties at different places to watch and correct a common picture on their own computer displays. In addition a video camera for photographing the video picture of each party is provided at each places each computes exists. In addition the catalogs of all the other computers usable by the video conference are provided for each computer. In the period of the video conference, the user captures the picture and stores it next to "individual name" within the catalog.

LEGAL STATUS

[Date of request for examination]

BEST AVAILABLE COPY

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
